ABOUT MYSELF

I conduct the healthy way of life. Like sport, and engaged in snowboarding, aggressive skating, bike-freeride, aikido, modern-dance, hip-hop and bodybuilding. Love photography, philosophy and modern art.
Greeks believed that man should be perfect in everything and I think also. Ofcourse, it is impossible to attain an ideal, but you can try to approach to it. So I always study something new and try to become better in subjects that i already know. And we must always remember that helping other people to become better, we become better ourselves. Here's how I see this life.

WHAT I AM LOOKING FOR

- Complex and interesting projects
- High salary
- Friendly staff
- Pleasant environment for work
- Convenient office location
- Availability of prizes and incentives
- Trainings, gym
